BLACKBURN'S CHOICE.

He Thinks Gorman and Boies Would Win.

The Washington Post publishes an interview with Kentucky's Senior Senator, in which the brainy and wordy gentleman said:

"I have already wagered, of course with heavy odds in my favor, that I could pick our chances at Chicago. No, you needn't ask me the details of that bet; but it wasn't of a pecuniary character. I had to make a selection from the entire field, and took Gorman and Boies. Isn't that a strong team, and wouldn't Democrats from one end of the land to the other support that ticket with glad enthusiasm? Gorman and Boies ought to be the candidates.

"Could these win? Can a duck swim? Seven States west of the Mississippi would fall into the Democratic column as surely as those names were put up. The ticket would almost elect itself.

Ten Drowned.

Morrilton, Ark., May 18.—By the capsizing of a boat on the Dowd place this afternoon Hamp Wilson, colored, four women and five children were drowned.

Died at 103.

Bedford, Ky., May 18.—Mrs Jenkins, mother of William Jenkins, died near here, having reached the age of 103 years. Mrs. Jenkins was the oldest resident of the county. She was the mother of a large family, the oldest of which is past seventy years.

The Flood Will Bankrupt Farmers.

Morrilton, Ark., May 18.—The Arkansas river at this point is higher than ever known, and is still rising. Fully 10,000 acres of corn and cotton are overflowed, and fences and houses washed away and tenants are deserting the low lands. Special efforts are being made by planters to save their stock. Many hundred farmers will be bankrupted. The damage can not be estimated.

FURIOUS WINDS.

The Island of Mauritius Swept By a Hurricane—Great Loss of Life.

London, May 19.—Advices received here from Mauritius state that a hurricane unprecedented in its violence passed over that island on April 29, causing enormous damage to shipping. A majority of the vessels at the island were blown ashore. The western half of Port Louis, the capital, was devastated. Houses were blown down, gigantic trees were uprooted and that part of the town was about wiped out of existence. The loss of life was appalling. A large number of persons were caught in the falling houses and crushed to death, while others lost their lives by being struck by flying debris while they were attempting to find places of safety. The roar of the gale was deafening, and people rushed to and fro in aimless confusion with no idea of what they were doing. Rain fell in torrents. The thunder crashed with awe-inspiring volleys, while the flashes of lightning were blinding. Never before in the history of the island has such a warring of the elements been known, and never was there such a widespread fear among the inhabitants. The exact number of dead is not known. Every effort is being made by the authorities to alleviate the suffering that has been caused

by the disaster. The Governor has issued orders for military tents to be distributed to shelter the homeless, and food is being issued to those who have lost everything by the storm.

Half of the crops of sugar, rice, coffee and pepper have been utterly ruined. In this direction is extremely heavy.

Mauritius, or as it is sometimes called, Isle of France, has always been noted for violent and destructive hurricanes but this one exceeds in destructiveness any hitherto known. The islands lies in the Indian ocean, and is well known as the scene of the famous story of "Paul and Virginia." In that story the author describes with great minuteness a terrible hurricane that passed over the island during which Paul and Virginia lost their lives. But the horror of that scene was far exceeded by this last death-carrying wind that has thrown the whole island into mourning.

ENGLAND SHOCKED.

Houses Rocked on Their Foundations and People Aroused From Their Slumbers.

London, May 18.—Trough-out County Cornwall early this morning a somewhat severe earthquake was felt. The trembled so that houses rocked to and fro on their foundations, crockery was thrown from shelves and broken and in a few cases chimneys were overturned.

Almost everyone was asleep when the shock occurred. The people were awakened by the rocking of their beds and many of them, believing their houses were about to fall, rushed out in their night dress. The movement lasted for several seconds, but no damage of any consequence has been reported.

WOMEN ASSASSINATED.

At Denton, Texas, Four Helpless Females are Killed.

Denison, Tex., May 18.—Last night was a time of horror in Denison; between the hours of 11 and 3 o'clock three women were brutally murdered. The first victim was the wife of Dr. H. F. Haynes, one of the city's most respected citizens. The assassin shot Mrs. Haynes during the absence of her husband, and robbed her of her watch and jewels. A few hours later Miss Florence Hawley was shot and killed without a word of warning, in the privacy of her own room. There two victims were the best known and most highly respected people of the place. The other two victims were inmates of respectable houses, and they were likewise shot and killed by unknown assassins. Great excitement prevails.

No Negroes in Theatre.

New Orleans, May 18.—The eight white camps of the Grand Army of the Republic met to-night. These camps have been very much opposed to recognizing the negro camps, as they were ordered to do by the National Encampment. The meeting to-night was to determine whether they would accept the negro veterans.

After a long discussion they decided by a large majority not to do so, but to resign their charter of department and to retire as members of the Grand Army, to wind up its officers' affairs, and reorganize as a fraternal club. Trustees were selected to wind up the department's affairs and dispose of assets of Louisiana-Mississippi division G. A. R. This leaves the G. A. R. in these States entirely a colored organization.

CANNOT SCALE.

Insurance Companies Must Pay the Face Value on Their Policies.

Frankfort, Ky., May 10.—A bill that has attracted widespread attention passed the House yesterday; it is the Fallis insurance bill and it provides that insurance companies doing business in this State must pay in case of loss face value of their policies. The bill reads as follows:

Be it enacted by the General Assembly of the Commonwealth of Kentucky: That insurance companies, that take fire or storm risks on real property in this Commonwealth shall, on all policies issued after this act takes effect (in case of total loss thereof by fire or storm), be liable for the full estimated value of the property insured, as the value thereof is fixed in the face of the policy; one in cases of partial loss of the property insured, the liability of the company shall not exceed the actual loss of the party insured: Provided, that the estimated value of the property insured may be diminished to the extent of any depreciation in the value of the property occurring between the dates of the policy and the loss: And provided further, that the insured shall be liable for any fraud he may practice in fixing the value of the property, if the company be misled thereby.

STRUNG-UP.

Citizens of Muhlenburgh County Give Hemp to Three Villains.

It was reported yesterday that a lynching occurred at Greenville Tuesday night. On last Thursday an aged man was brutally assaulted and beaten near Central City and left on the railroad to die in agony. The supposition was that the act was committed by tramps, and a diligent search was made for the perpetrators. However, later developments proved that a negro named Tom Smith and two white men who names we have not learned were the guilty ones.

The officers took them into camp and landed them safely in the county jail at Greenville. An infuriated mob demanded the criminals, having secured the murderers hung them to show their disapproval of such deeds. The result was three lifeless bodies hanging in mid-air.—Earlington Bee.

Jefferson County Justice.

The Louisville Post says: There are ten murderers in the county jail. Five are under sentence of death and at least two of the four who have not been tried will pay the penalty of their crimes on the gallows. Those whom the courts have decided shall die are: Denny McCarthy, Grant Thomas, Nelson Lewis, Stephen Hite and James Matherly.

The Lady Commissioners.

The Women's Executive Committee of the World's Fair Board are holding a meeting this afternoon to organize. They are Miss Lucy Lee Hill, of Lexington; and Mrs. Susan P. Brown, of Owensboro. They will probably visit Chicago next week. The architects have received the circulars asking for designs of the Kentucky building, and the successful design will be worth something. The bonus of \$200 added to the usual fees for plans and superintendence will make the successful architect about a thousand dollars.—Louisville Post.

AN AVALANCH.

A Flood Wave Causes Great Loss of Life at Sioux City.

Sioux City, Iowa, May 19.—A great flood disaster has overtaken Sioux City. This morning a great wave came down the Floyd river, which flows through the center of the city and empties into the Mississippi, and which was already swollen bank full.

The wave came a few minutes after 7 o'clock. Warning had been given but a short time before to the inhabitants of the low-lands, but only a few of them had been notified. The first intimation was a volume of water spreading over the banks to a depth of three feet, and throwing a mist of foam from it. In a few minutes the water had risen above the first floors, and several thousand persons fled in terror to the high ground.

The loss of life in this city and vicinity is estimated at thirty or forty, and 8,000 people have been driven from their homes. Damage to property will amount to \$1,500,000.

SHALL WE SUCCEED.

In Raising the Funds to Start the Butter and Cheese Factory.
Monday Messrs J. P. Pierce and Wm. Helt returned from Illinois, where they had gone at the instance of Mr. Briggs to examine some butter and cheese factories run upon the Elgin plan. They reported the result of their investigations at a public meeting Monday afternoon. The propositions made upon the two gentlemen as to the success of these factories as money making institutions to the investors as well as to the farmers was very favorable and they unhesitatingly endorse the enterprise in Marion. "It is what we have wanted, and it is what we need now in this county," said Mr. Helt. "It will afford our farmers an opportunity for making money that we have not heretofore had. I shall take stock and sincerely hope we will succeed in raising the \$1000 for the establishment of the factory."
Mr. Pierce said: "They unquestionably pay where we have been, and I see no reason why they should not do likewise here. I certainly shall do all I can towards securing the establishment of one here. I certainly shall take stock, and I know that it will be of great advantage to the town and surrounding country."
Up to date several persons, including both business men and farmers, have subscribed for stock. The matter is being thoroughly canvassed among the farmers and there is a fair prospect of success. To continue the healthful growth of Marion, enterprises of character are needed, and her wide awake citizenry can ill afford to let an opportunity of this kind pass.

The third indictment for the same offense was dismissed on motion of the Commonwealth's Attorney.—Sturge Enterprise.

A CLOSE CALL.

Wiley Leeper, Col., thrusts a knife at Geo. Cruce's throat.
Saturday night Geo. Cruce, a good citizen, who lives three miles South of Marion, narrowly escaped death, and the instrument that made such a close call for his life was a knife in the hands of Wiley Leeper, colored. Some months ago ill feelings were aroused between the two, and Cruce told Leeper to keep off of his farm. Saturday night Leeper, in company with some other parties, were passing through Cruce's place, near his residence. Cruce undertook to run Leeper off of the place, when Leeper turned and made at Cruce with an open knife. In the melee the knife was twice drawn across Cruce's throat, and each time it left an ugly gash. One stroke made near the jugular vein, and had a little more power behind the weapon, the vein would have been severed. Cruce came to town Monday and had a warrant issued for Leeper.
One of the latest additions to Marion's numerous political, religious and social organizations is the Laying Club. There has been a long felt want for an organization of this kind and last Thursday a party of our famous Nummels went over on Piney to spend a day or two in hunting and fishing, and while there completed the organization of the institution referred to. Mr. H. T. Flannery was elected to the presidency without opposition, and Mr. Jas. Lewis, after a considerable fight won the secretaryship. The other members of the club are Messrs W. D. Wallingford, E. C. Flannery, C. J. Pierce, John Clark, Dr. R. L. Moore, and C. E. Doss. While valuable addition will doubtless be made, the charter membership insure the permanency of the club. After the election of officers, speeches were made by each member, and then dispersed with gun and rod to gather material upon which to found historical narratives for the next gathering.

Don't forget the school trustee election Saturday June 4. Remember that you will have no earthly right to grumble about the action of the trustees without your vote helps to elect them. Turn out and select good men.
A CARD.
I wish to state for the benefit of my friends in Marion and Crittenden county, whereas, a false report has come to my ears from that section that instead of attending meeting that I have opened up a saloon. I wish to state that any man or woman here or there, or elsewhere that says I have opened up a saloon, or in any way connected or interested in a saloon more than to tear down and do away with the same has made a false statement and has grossly misrepresented me and I dare them to make their names known.
Respectfully,
M. L. Hays.

DELINQUENT TAX LIST.

Sheriff Cruce Makes His Return For the Year 1891.
Last week Sheriff Cruce presented his delinquent poll-tax list to the county court and after being scrutinized by the judge and county attorney, the list was approved, and the sheriff and securities were thereby released from further responsibility so far as that amount of uncollected and uncollectable tax is concerned. The list embraces 509 names, and to those not conversant with the situation of affairs this appears to be a very large per cent of the poll-tax payers of the county. This list a few years ago cut a considerable figure in local politics. It was charged that the lists returned by the various sheriffs was entirely too large, but experience has taught every sheriff for years that "when the number of names was reduced to less than 500 the collector had been exceedingly fortunate. Years ago when the matter figured in politics, an official wrote to the sheriffs of all adjoining counties, asking for the returned in their number counties. The replies showed that Crittenden had a smaller list delinquents than any of her neighbors, and this is probably the case to day. The first year of Mr. A. J. Pickens' term the list was 583; the second year 567, the third year 509, and the fourth year he succeeded in reducing it to 495. From 20 to 25 per cent of the number is chargeable to the colored list; a considerable per cent of the number are transient persons, who come and go at will, bringing nothing with them and taking nothing away. The delinquent tax list was originally offered for sale to the highest bidder, later a law was enacted providing for the collection of these taxes by the constables of the various precincts, but this plan has done little of late years towards collecting, it pays the officer but little and the office generally goes begging in each district, and now as a rule they do not take the list for collection. The sheriff continues to the end of his term to collect whatever he can, and turn it over to the county. Taking all circumstances into consideration, as large a per cent of Crittenden county people pay taxes as any other, and our sheriffs are as good if not better collectors than the average sheriff.
As is known Mr. S. O. Nunn has tendered his resignation as deputy warden at the Eldysville branch penitentiary. As deputy warden Mr. Nunn has made a splendid record, and the state, by his resignation, loses the services of a faithful, conscientious officer, one who has been true to his trust; not only has he been true to the state, but his kindness and human treatment of those under his care made him a favorite with the prisoners. He will move back to Crittenden after June 1, and return to his first calling, that of farming. At the proper time he will probably be a candidate for the State Senate, and as he is a worker from "away back" he will, if given the nomination, redeem the district from the Third Party murgols, or know the reason why.
To Nominate Candidates.
The Republican County Committee to Meet Saturday.
Saturday the Republican County Committee of this county will hold an important meeting in Marion. The committee is composed of fifty-four men—six from each voting precinct—and the meeting Saturday is to nominate candidates for Sheriff and Circuit Court Clerk. Mr. H. A. Haynes, appears to have a walk over for the nomination for the clerkship as he has no opposition. Mr. B. A. LaRue, has talked some of entering the contest, but, in the last few days, has stated that he would not be a candidate. This leaves Mr. Haynes the field to himself. In the contest for the nomination for Sheriff there are three anxious candidates—Messrs J. T. Franks, Geo. H. Crider and W. A. Woodall. Mr. J. A. Davidson, would have no objections to trying the running qualities of Sheriff Cruce again in November. However, he is not an announced candidate and will probably not be.

A BRUTAL NEGRO.

John Crow Shows His Want of Human Impulses.
Wednesday morning two or three persons living on north main street saw John Crow, col., commit a brutal act, one that proves that he is utterly void of any human impulses. A little negro boy about a year old, his stepson, had climbed to the top of a high plank fence, Crow told it to get down; it failed to do so, and he jerked it to the fence and pitched it to the ground, the child's head struck the ground first, and the little fellow remained there senseless, while Crow went away. The officers were notified, and a doctor called, in the course of an hour, the little fellow came around, with a big bruise on his face and head, and blood flowing from his nose, to show that it had in no wise been tenderly handled. The crowd that gathered thought the child was dead. A warrant was issued and the sheriff found Crow enjoying himself fishing; he will have to answer the charge of assault and battery. It is said that Crow and his wife frequently put the child in the yard, lock the house up, and leave the little fellow to wallow around the yard and wear away the day as best he could. Wednesday morning his only companion was a regular Bill Nye mule. Had a white child been subject to such treatment, its neck would have been broken.
Mr. Thos. Babb, of Livingston county, was in town Monday. While here he became sufficiently interested in the butter and cheese factory to take \$100 worth of stock in the enterprise. It is a man who lives in another county takes hold of the affair in such a confidential way, the people who live in and near Marion should take the remainder of the stock without further equivocation.

World's Fair Notes.

An association has been formed in Germany to organize excursion parties to visit the World's Fair and incidentally Niagara Falls, and a number of the larger cities. It is proposed to accomplish this within a period of sixty days and an expense of between \$250 and \$300.

In Topeka, Kan., an organization, termed the Afro-Columbiad Auxiliary Club, has been formed for the purpose of aiding the colored people of Kansas, Colorado and Missouri, to attend the World's Fair and obtain reduced rates and good accommodations.

A \$50,000 monument to Columbus, designed by sculptor Howard Kretschmar, of Chicago, will be erected in Lake Front Park, which has been termed the "Gate way to the Exposition." It will be a statue in bronze twenty feet high, surmounting a granite pedestal thirty feet high. The monument will form the design for souvenirs of the Exposition.

Gen. J. H. Brinker, one of the alternate National Commissioners from Mississippi, has in his possession, and will exhibit at the Exposition, five bales of cotton that was raised by slave labor in 1862-3.

Visitors to the Exposition will be able to go comfortably and expeditiously from one part of the grounds to another and obtain advantageous views of the buildings. They may do this either in electric boats through the lagoons, or by the intramural elevated electric railway. The contract for the latter has been awarded. There will be five miles of double track and stations at convenient points. The route, as mapped out, runs from one end to the other of the grounds in a sinuous course. The fare will be five cents, and the capacity of the road about 20,000 an hour.

The Bureau of the American Republics has received information that the Exposition Commissioners of Ecuador have had constructed a face simile of the famous palace of the Inca Perca, the ruins of which stand near the city of Quito. This beautiful structure will be a conspicuous feature of the Chicago Exposition.

Great Britain's building at the Exposition will be a typical specimen of a picturesque, half-timbered English home of the time of Henry VIII, or about the period which the World's Fair will commemorate. It will be ninety feet square, two stories high, and built of red brick, heavy timber and yellowish terra cotta, with red tiling for the roof.

A project is being perfected at Melbourne, Australia, whereby a large party of artisans of various crafts may be enabled to visit the Exposition at Chicago for study and pleasure combined.

In the women's exhibit from South Dakota will be a life size statue of a Sioux Indian maiden. The subject was Minnehaha, the eighteen year old daughter of Sitting Bear, who was prominent in the engagement with Gen. Custer's troops on the Little Big Horn. Minnehaha fell in love with a lieutenant in the U. S. army at Fort Sully and died of a broken heart.

Insurance aggregating more than \$3,000,000 is now carried on the World's Fair buildings.

The Warschawskij Dujewnik, a paper published in Warsaw, Poland, describes a wonderful clock which will be exhibited in Chicago. The clock is the result of six years of earnest work by a watchmaker, named Goldfaden, in Warsaw. It represents a railroad station, with waiting rooms for travellers, telegraph and ticket offices, an outside

promenade and a fountain in operation. Along side of the station are seen the tracks, with signal-booths, switches and water reservoirs,—in fact, everything belonging to a European railroad depot. In the dome of the central tower of the building is a clock showing the local time, while in each of two other towers there is a clock, giving the time, respectively, of New York and Pekin. In both of the towers, last mentioned, a calendar and barometer are seen. Every quarter of an hour it gets lively at the station. First the telegraph operator does his work—issues the telegram to signify that the track is clear. Then the doors of the building are opened; the station-keeper and his assistant appear on the platform; at the ticket office the cashier is noticeable; the guards leave the signal-booth and hoist the barrier; a long row of passengers is observable in front of the ticket office; baggage is hauled; one of the guards rings the bell and a train runs into the station. While the whistle of the locomotive is blown, the train stops; a workman goes along the row of coaches and hits the axles with a hammer, while another one pumps water into the water of the locomotive. After a third signal with the station-bell the train starts and disappears in a tunnel on the opposite side. The station-keeper and his assistant leave the platform and the doors of the depot building are closed, the guards enter their booths and quiet reigns. After fifteen minutes the same trouble commences again.

The \$60,000 World's Fair appropriation, which Greece has made, will be devoted in large part to the preparation for exhibit of reproductions in cast of the many famous specimens of ancient Greek art now owned by the government. These casts, it is announced, will be presented to one or more American museums after the Fair closes.

A glass punch bowl, made by the glass blowers of Cork in 1825, and presented to Daniel O'Connell, the famous Irish patriot will appear in the exhibit from Cork. One side of the bowl bears O'Connell's initials and the other a representation of Cork, as it then existed.

The Exposition, probably, will not have an Eiffel tower or anything approximating it in height; except the elevation of which the captive balloons will ascend. There will be, however, three observation towers about 300 feet high for the accommodation of visitors, who want to take a bird's-eye view of the grounds and buildings. These towers will be of elaborate design and beautiful in appearance and will cost about \$200,000.

Dr. N. G. Blalock, president of the Washington State World's Fair Board, announces that there will be celebrated at the Washington building a "watermelon day." He has set apart 100 acres to be devoted entirely to the raising of these melons, and he promises to take a train load of them to the Fair and give them away with purpose of convincing people that as a water-melon growing state Washington stands first.

The most conspicuous ornamental feature of the dual palace in the city of Brunswick, Germany is a huge quadriga or chariot, drawn by four horses abreast. It is of copper, and is the work of George Howaldt, who is the inventor of the process—one of great ingenuity and merit—by which it was made. As a work of art, it attracts great attention. The Brunswick Art Industry Society will reproduce the quadriga, quarter size, and send it to the World's Fair.

WILL BRIDGE THE BOSPHORUS.

Europe and Asia to Be United by Iron Bands.

Chicago, Ill., May 19.—Fitzgerald, a London engineer whose name is known in connection with the construction of the famous Furth bridge, is in the city, enroute to England from Mexico. He predicts the building of a bridge across the Bosphorus to Constantinople. "From information which I have lately received, I expect at an early date to hear it officially announced that the Turkish Government has actually arranged to do this," he said. "This will bridge Asia and Europe where now ferry boats are the only means of communication. The estimated cost of the work is \$20,000,000 less than the cost of the Furth bridge. It will be but part, however, of a stupendous work which will revolutionize travel and commerce, for I believe that the tunnel under the English channel will be commenced immediately and I expect myself to engage in a part of this work this summer. The Southeastern Railway Co., has already commenced the undertaking. When both of these plans are carried out trains will actually run from London to Constantinople without change. As it is now, in addition to the channel, the train you take on arriving at Calais carried you only to Brindisi, Italy, and there you must again take the steamer."

Rev. Summers will preach here the first Sunday night in next month. Farmers are wanting to get through planting corn, but it keeps on raining. Let us hear from "Guess Who" again. Linnie. Wicked Graves. Graves county must be growing awful wicked, if we may judge by the number of indictments found by the late grand jury. There were eighty-eight, and the included almost every known crime except murder, and there were several attempts at that.

Beware of Impostors.

Two well-dressed and respectable looking men have recently been imposing on the people of Lyon county. They claim to be agents for an Orphans' Home in Louisville, and obtained money from a number of persons, promising for donation to send them a fine bible.—Princeton Banner.

Shakespeare's Birthplace Saced.

London, May 19.—A dispatch received here from Stratford-upon-Avon says, at their annual meeting held there today, the Shakespeare birthplace trustees confirmed the purchase of Anne Hathaway's cottage, in order to prevent the historic building from going to the World's Fair, to be held at Chicago. With the same object in view, they also empowered the committee having the matter in charge to purchase the furniture the cottage contained.

Eddyville Items.

As Eddyville has never had any correspondent from this place I will drop you a few lines.

Eddyville is a very pleasant little city, with many good people and plenty of children to make two or three good Sunday school's.

The Democrats held a meeting here Saturday and instructed for R. C. Walker for delegate district.

Hon. L. H. James, of Marion come over and spent one day in our city.

Hon. Sam O. Nunn, has sent in his resignation as deputy warden of the pen at this place. We are sorry to let Sam leave us.

Judge Catlett the veteran grocery of the town is the ladie's man. He is always ready to smile on the fair sex.

Hon. L. H. James and S. O. Nunn started for Paducah to see the great war ship with its guns.

Our quiet little place was aroused by the blowing of a whistle yesterday, and on going to the landing we found the steamer "Gas Fowler" of the Paducah and Cairo line, loaded with the citizens of Paducah and towns between there and this place, numbering about 200 in all. The object of the visit was to see the State prison.

Pinckneyville. Farmers are making tobacco hills in the mud. Mr Arnold, of Paducah was in town Sunday.

The steamer "E G Rayon" took on a large amount of wheat at this place Sunday night.

McChesney, the mill-man was here last week seeing what the prospect was for a flour mill at this place.

Several of the Lone Cherry boys visited our Sunday school last Sunday.

Singing at Mr Will Grays Sunday night.

The "hustler" C Hodge, was in the city Sunday. Some of our citizens went to Paducah yesterday to see the war-ship concord.

Come to Pinckneyville on Cumberland river and trade with our enterprising merchants Bunton Bros.

Rev Summers will preach here the first Sunday night in next month.

Farmers are wanting to get through planting corn, but it keeps on raining.

Let us hear from "Guess Who" again.
